U73209.

Specific Task Work.

C1193.

Shenmore Court area.

Return to area and complete work on drainage system located on last visit.

Clean out side entry gully pits (6).

Jet clear road culvert.

Jet connecting pipes.

Prepare connecting pipes not cleared by out jetter for BBLP to attend.

NB.

We did not complete the clearance of these drains as we felt that we had used more than enough of our budget to date in this area and that we had done enough prep work in order for BBLP to take over.

When this work is complete we think it will greatly reduce the flooding of the road in this area and hopefully reduce the damage to an already poor road surface.
