Notes.

C1098.

The high volume of traffic on this road given that it single file traffic in many areas and has a high number of blind bends which makes it a dangerous and difficult road to work on. We would rate it at a higher risk level than a B road and as a result in order to meet the requirements of the Chapter 8 regulations on signage we have to use traffic management on this road.

There are some areas of ditch clearing on roads covered on this visit which will have to be discussed at the next meeting Ref BBLP publication Riparian Ownership.
