

RECORD OF WORKS CARRIED OUT BY TERRY GRIFFITHS CONTRACTS

PARISH COUNCIL	Madley Parish Council.
ACCOUNT	Roads-specific task.
MONTH	September 2016.
INVOICE NO.	TGC1815

Description of work carried out:-

Madley Village.
Archenfield.

Put in drainage ditch in verge adjacent to MY 42(?) to drain surface water off the path area.

Outfall the ditch into the watercourse.

Clean out area of watercourse either side of footbridge and culvert headwall.

Notes.

This is preliminary work which will need completing when the area where surface water is holding are identified and marked up. We can then confirm the levels and fall of the new ditch are correct and the grips can be put in at the necessary points along the ditch embankment to draw the water in.

Using locally provided knowledge we terminated the ditch at a field access from which we understood the majority of the surface water contaminating the pathway comes from.

Over the coming weeks as the weather breaks we will monitor the effect of the work and attend as necessary to upgrade this drainage work.
